

## PUBLIC SERVICE ANNOUNCEMENT / MESSAGE D'INTÉRÊT PUBLIC

For immediate release:  
June 17, 2010

### **New OC Transpo summer schedules start June 27**

**Ottawa** – On Sunday, June 27, new summer schedules go into effect and improvements will be introduced on three routes.

New summer schedules will be reduced to reflect the lower demand for service during the summer vacation period. School routes will be suspended until the fall, and there will be minor schedule reductions to mainline and peak period routes. New printed timetables are available at OC Transpo Sales Centres and through the mail by calling 613-741-4390. Schedules are also available at [octranspo.com](http://octranspo.com).

Route improvements include:

- the extension of two trips in the morning and afternoon on Route 22, to Montmere at Blackburn Bypass in Orléans, to bring service closer to new residents
- the extension of some trips on route 96 from Hurdman Station to Blair Station on weekdays, during peak periods and the mid-day, for improved connections and travel options
- the first two morning trips on Route 283 will bypass Bayshore and Pinecrest Stations to provide a faster trip for customers.

For automated bus arrival information, customers can call 613-560-1000 plus their four-digit bus stop number. For more information and travel planning, visit [octranspo.com](http://octranspo.com) or call 613-741-4390.
